

Bicycle Shelters

Applications

Parks
Leisure Areas
Play Areas
Urban
Schools and Colleges
Work Places

Specification

The shelters are constructed using high specification gauge steel to ensure the greatest durability and maximum visibility.

Finish:

The shelters are finished by means of hot dip zinc galvanizing followed by a coloured polyester powder coated top coat, giving a long lasting maintenance free life span.

These shelters are popular with schools, colleges and workplaces encouraging staff to commute while being environmentally friendly. These shelters offer a safe storage place whilst keeping cycles sheltered from the weather.
