

## Sliding Gates

### Applications

Commercial  
Industrial  
Schools  
Security

### Features

Can be clad with a variety of materials  
Tracked or cantilever  
Automated or manual opening/closing.

### Specifications

#### Standard heights:

1800, 2000, 2400 and 3000mm.

#### Cladding:

Double wire mesh, 358 mesh, steel palisade, vertical bars.

#### Toppings:

Extensions for barbed or razor wire.

#### Automation:

A variety of opening devices such as card readers, open/close push buttons, keys, remote control or key pads. Entry and exit loops, intercom, infra red beams, safety edges and other options complement the package available.

#### Finish:

Hot Dip Galvanised to BS EN ISO 1461 or Galvanised & Polyester Powder Coated.

*Sliding gates provide solutions to areas where there is no space for swing gates to open or close. In addition they are easy to automate and easy to provide safety measures to ensure compliance with European standards.*
